Chinese waters

1 MAY 1514

Kopernicus (= Copernicus) circulated a manuscript called "The Little Commentary" which questioned the entire Aristotelian system and suggested a sun-centered system with a moving earth.

It was published in 1543 when Copernicus died

1514

The Secretary to the Pope asked a relatively unknown mathematician, who was also Canon of F-ROMBURG, in Poland to look at the problem of Calendar reform. The priest, called Nicholas Kopernik, replied that nothing could be done about the Cal. until the matter of the relationship between the sun and moon had been resolved.

PAL ESTRINA was born

1514

A direct assault on Safavid power in 1514 failed to dislodge Ismail Safavi from Persia, but a Turkish victory at TCHALDIRAN brought upper Mesopotamia and Kurdistan into the Ottoman Empire. Ismail Safavi now looked to an alliance with the Mamluk sultanate of Egypt and Syria. To prevent it, Sultan Selim advanced into Syria.
